

Maintenance Workshops

CPSA is putting on NEW maintenance workshops this Spring to expand training and education offerings to its members.

CPSA's Maintenance Workshop is a comprehensive one day event (8am - 4:00 pm). We are pleased to be able to host this workshop at:

Charleston Convention Center, Charleston, WV, March 31, 2026

Central Bank Center, Lexington, KY, April 27, 2026

(in conjunction with CoalProTec 2026)

Registration can be done on our website listed below or contact Toni Franklin (coalprepsociety@gmail.com) for larger groups. A lunch and refreshments will be provided. Cost is \$200 for members and \$275 for non-members (which includes a 1 year membership). Attendance is limited to 40 participants to maximize interaction.

The workshop will be led by a number of experts from our corporate membership and covers much of the key processing equipment in a prep plant. It is designed for anyone involved in operations and maintenance and will earn 8 Professional Development Hours.

The day will be packed with presentations, videos and hands on demonstrations and Q&A sessions so you can hear what others are doing and what constitutes best practices. The schedule follows:

Start	Finish	Company	Topic
8:00	8:15		Welcome and Introduction
8:05	9:05	SNF	Thickener and Flotation
9:05	9:15		Break
